

SCHOOL MANAGEMENT PLATFORM

Nozom School Features & Benefits

One connected system for the office, the classroom and the home.

Admissions, academics, attendance, exams, fees, transport and communication on web and mobile, in Arabic and English.

22 modules

Web panel + 2 mobile apps

Arabic & English · RTL

Private database per school

Most schools run on tools that do not talk to each other

Attendance in a register, marks in Excel, fees in a notebook, notices in chat groups. Nozom School replaces the six places with one.

One source of truth

Every student, teacher, mark, payment and absence lives in one record that the office, the teacher and the family all see. Entered once, never retyped.

Faster fee collection

Installment plans, PDF receipts, an overdue list at any moment and automatic reminders before a due date shorten the wait for money.

Parents in the loop

Absence alerts, results, diary notes, fee balances and announcements reach home on the app the same day, without a phone call to the office.

Less paper, fewer hours

Attendance, marks, report cards, receipts, ID cards and certificates are produced by the system. Leadership gets numbers in one click, not in days.

The whole school in one system

Every role signs in to the same live data and sees only what it should.

22

integrated modules

From admissions and timetables to fees, payroll and transport.

6

built-in roles

Admin, teacher, student, guardian, driver and helper, plus roles you define.

3

ways in

Web panel, student & parent portal, and native Android / iOS apps.

2

languages

Arabic and English everywhere, with true right-to-left layout.

1

private database

Your school's data sits in its own database, separate from every other school.

Leadership & admin

Setup, fees, staff, reports and permissions from the web panel.

Teachers

Attendance, lessons, assignments, exam marks and diary notes.

Students

Timetable, lessons, assignments, online exams and results in one place.

Parents

Follow every child from one login: attendance, results, fees and diary.

Built for how Egyptian schools are structured

The academic structure is yours to define: stages, streams, shifts, sections, electives, semesters and your own grade scale.

Egyptian National

Arabic-first panel, national grade stages, semesters and the national grading scale.

American

K-12 grade levels, streams, elective groups and GPA-style grade scales.

British

Key stages mapped to classes and sections, with subject groups per stage.

International Baccalaureate

Diploma subject groups and custom assessment scales per subject.

Morning and evening shifts

Each shift keeps its own timetable and attendance.

Elective subjects

Elective groups per class; students pick, teachers see their lists.

Year rollover

Promote and transfer students, then roll into the new session year.

Setup wizard

A guided wizard builds a new school's structure in an afternoon.

PLATFORMS

Features

ADMINISTRATION · TEACHERS · PARENTS · STUDENTS · FINANCE · LEARNING · OPERATIONS · MOBILE

Administration features list

Everything the office does in a day, with Excel import and PDF export where it matters.

- ✓ Online admission form with a review queue
- ✓ Student information system and family records
- ✓ Bulk student and staff import from Excel
- ✓ Daily and monthly attendance registers
- ✓ Staff attendance and leave approvals
- ✓ Class, section, stream, shift and semester setup
- ✓ Class and teacher timetable builder
- ✓ Exam schedule, marks entry and grade scales
- ✓ Published results and report PDFs
- ✓ Fees, installments, receipts and overdue tracking
- ✓ Expenses, payroll and payslips
- ✓ Transport: vehicles, routes and pickup points
- ✓ ID card and certificate designer
- ✓ Announcements, notifications and email templates
- ✓ Student diary: behaviour notes by category
- ✓ Holidays and academic calendar
- ✓ Photo and video gallery
- ✓ Public school website with a contact inbox
- ✓ Roles and permissions you define
- ✓ Dashboards, student and staff reports, Excel and PDF export
- ✓ Promote, transfer and year rollover
- ✓ Database backup and restore

Dozens of automated tasks save the school office hundreds of hours every year.

Teacher features list

Less paperwork, more teaching. Web panel plus the staff app for Android and iOS.

- ✓ My timetable and assigned classes
- ✓ Class attendance, taken once and shared
- ✓ Lessons and topics with files, video and links
- ✓ Assignments with due dates, submissions and grading
- ✓ Exam marks by subject or by student
- ✓ Bulk marks upload from Excel
- ✓ Online exams with a question bank
- ✓ Student diary and behaviour notes
- ✓ Announcements to a class or section
- ✓ Student profiles and guardian contacts
- ✓ Syllabus tracking per subject
- ✓ Apply for leave and view payslips
- ✓ Tasks assigned by management
- ✓ Push notifications on the staff app

Parent features list

One login for every child. Guardians switch between children inside the app.

✓ Attendance with absence alerts

✓ Timetable and school calendar

✓ Lessons, assignments and submissions

✓ Exam schedule and published results

✓ Result PDF and report cards

✓ Fee balance, installments and receipts

✓ Diary and behaviour notes

✓ Announcements and notifications

✓ Transport route and pickup point

✓ Stop-by-stop trip progress

✓ School gallery and news

✓ Child's ID card and certificates

✓ Switch between children

✓ Arabic or English interface

Student features list

Everything a student needs for the day, on the web portal or the app.

- ✓ My timetable and calendar
- ✓ Lessons with files and video
- ✓ Assignments and file hand-in
- ✓ Resubmission and grades
- ✓ Online exams with timer
- ✓ Exam schedule and results
- ✓ Attendance and absences
- ✓ Syllabus and topics
- ✓ Announcements and notifications
- ✓ Elective subject selection
- ✓ Transport route and trip status
- ✓ My ID card and certificates
- ✓ Screenshots blocked during online exams
- ✓ Arabic or English interface

Know who paid, who is late and where the money went

Fees, expenses and payroll in the same place as the student record.

FEE STRUCTURE

Fee types, compulsory and optional fees, a structure per class.

INSTALLMENTS

Due dates, late charges and advance payments.

RECEIPTS

A PDF receipt for every cash or cheque payment.

OVERDUE LIST

Who is late, at any moment, with automatic reminders.

TRANSPORT FEES

Billed and tracked the same way as tuition.

DASHBOARD

Collected and overdue totals on the leadership dashboard.

EXPENSES

Categories, entries and an expense report.

PAYROLL

Salaries, allowances, deductions and monthly payslips.

Online payment through an Egyptian gateway such as Paymob or Fawry can be added as a custom integration.

From lesson to report card

Lessons, assignments and exams, in school and online.

LESSONS

Topics with files, uploaded video, YouTube and external links.

ASSIGNMENTS

Due dates, points, file hand-in, resubmission and grading.

QUESTION BANK

Equation editor, bulk import and random selection from the bank.

TIMED PAPERS

Exam key, start and end window, duration, automatic marking.

EXAM TIMETABLE

A schedule for every class, visible to students and parents.

MARKS FROM EXCEL

Enter by subject or by student, or bulk upload.

YOUR GRADE SCALE

Define grades once; results are calculated automatically.

RESULT PDF

Published results, yearly, subject-wise and rank reports.

Transport, people and the school's public face

The parts of school life that other systems leave out.

VEHICLES & ROUTES

Vehicles, routes, pickup points and transport fees.

TRIP PROGRESS

Driver and helper logins, trip attendance and stop-by-stop progress for parents.

ID CARDS

Design templates and issue cards for students and staff.

CERTIFICATES

A certificate template builder; issue to students or staff.

STAFF & LEAVE

Staff files, leave requests, approvals and tasks with status.

SCHOOL WEBSITE

A public site you edit yourself, with sliders, news and a contact inbox.

GALLERY

Photo and video albums shared with families.

COMMUNICATION

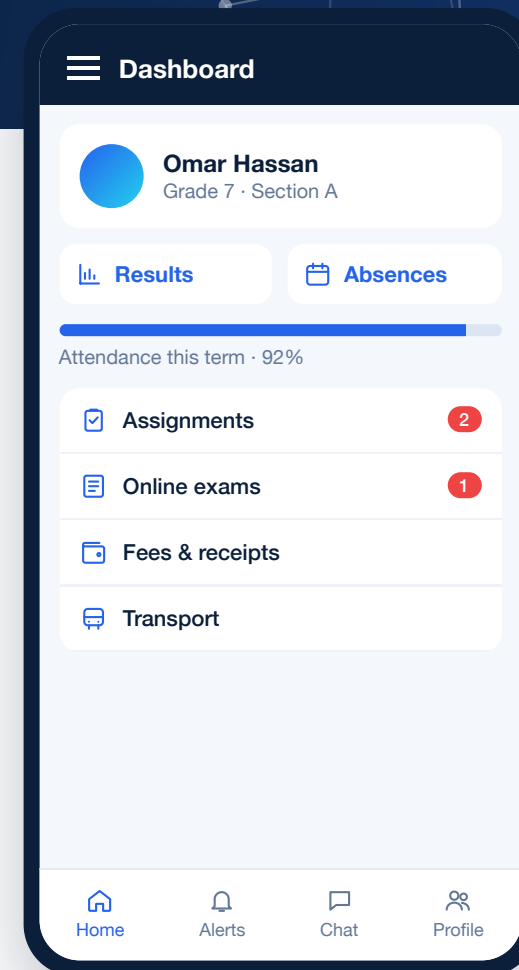

Announcements, push notifications, email templates and chat.

Nozom School on Android & iOS

A student & parent app and a staff app, published under your school's name during rollout.

Teachers, students and parents keep track of the school day on the go. Everything on the web panel that matters outside the office is on the phone.

- | | |
|---------------------------------|--|
| ✓ Attendance and absence alerts | ✓ Diary and behaviour notes |
| ✓ Timetable and calendar | ✓ Announcements and push notifications |
| ✓ Lessons and assignments | ✓ Transport trip status |
| ✓ Online exams | ✓ Switch between children |
| ✓ Results and report cards | ✓ Leave requests and payslips (staff) |
| ✓ Fees and receipts | ✓ Arabic and English |

Works where your school works, and keeps its data its own

Nothing to install. Any modern browser, plus the apps.

PRIVATE DATABASE

A separate database per school, with backup and restore from the panel.

ROLES & PERMISSIONS

Role-based access down to the single action.

EMAIL CODE AT SIGN-IN

A one-time code by email on every new sign-in.

PROTECTED EXAMS

Screenshots blocked in the student app during online exams.

WHY WORK WITH NOZOM PLATFORMS

Based in Cairo

Our team is in Heliopolis, in your time zone and your language.

Arabic-first onboarding

Training, the admin guide and day-to-day support are in Arabic.

Custom work in-house

We are a software house. Integrations and custom features are built by our own developers.

One line to reach us

WhatsApp, phone and email reach the same team that set up your school.

NEXT STEP

See it running with your own team.

Book a live demonstration. We will walk your team through each role, then tailor a proposal to your school.
