2026 · PRODUCT SHOWCASE

SCHOOL MANAGEMENT PLATFORM

Nozom School
Features & Benefits

One connected system for the office, the classroom and the home.
Admissions, academics, attendance, exams, fees, transport and communication on web and mobile, in Arabic and English.

26 modules | Web panel + 2 mobile apps | WhatsApp alerts to parents | Live bus tracking | Arabic & English · RTL | Private database per school

WHY NOZOM SCHOOL

Most schools run on tools that do not talk to each other

Attendance in a register, marks in Excel, fees in a notebook, notices in chat groups. Nozom School replaces the six places with one.

One source of truth

Every student, teacher, mark, payment and absence lives in one record that the office, the teacher and the family all see. Entered once, never retyped.

Faster fee collection

Installment plans, PDF receipts, an overdue list at any moment and automatic reminders before a due date shorten the wait for money.

Parents in the loop

Absence alerts, results, diary notes, fee balances and announcements reach home on the app and on WhatsApp the same day, without a phone call to the office.

Less paper, fewer hours

Attendance, marks, report cards, receipts, ID cards and certificates are produced by the system. Leadership gets numbers in one click, not in days.

THE PLATFORM

The whole school in one system

Every role signs in to the same live data and sees only what it should.

Nozom Platforms

26
integrated modules
From admissions and timetables to fees, income, payroll and transport.

6
built-in roles
Admin, teacher, student, guardian, driver and helper, plus roles you define.

3
ways in
Web panel, student & parent portal, and native Android / iOS apps.

2
languages
Arabic and English everywhere, with true right-to-left layout. Arabic is the default.

1
private database
Your school's data sits in its own database, separate from every other school.

Leadership & admin
Setup, fees, staff, reports and permissions from the web panel.

Teachers
Attendance, lessons, assignments, exam marks and diary notes.

Students
Timetable, lessons, assignments, online exams and results in one place.

Parents
Follow every child from one login: attendance, results, fees and diary.

SUPPORTED CURRICULA

Built for how Egyptian schools are structured

The academic structure is yours to define: stages, streams, shifts, sections, electives, semesters and your own grade scale.

Egyptian National

Arabic-first panel, national grade stages, semesters and the national grading scale.

American

K-12 grade levels, streams, elective groups and GPA-style grade scales.

British

Key stages mapped to classes and sections, with subject groups per stage.

International Baccalaureate

Diploma subject groups and custom assessment scales per subject.

Morning and evening shifts
Each shift keeps its own timetable and attendance.

Elective subjects
Elective groups per class; students pick, teachers see their lists.

Year rollover
Promote and transfer students, then roll into the new session year.

Setup wizard
A guided wizard builds a new school's structure in an afternoon.

Nozom

PLATFORMS

Features

NEW · ADMINISTRATION · TEACHERS · PARENTS · STUDENTS · FINANCE · LEARNING · OPERATIONS · MOBILE

NEW IN THIS EDITION

Eight new features, live and ready to use

Live bus tracking, online fee payment, a syllabus-wise question bank, Arabic PDFs, dark mode and full control of the school's data.

Nozom Platforms

Live bus tracking

The staff app sends the bus position during the trip. Parents follow the bus live on a map in the app, next to the stop-by-stop progress.

Online fee payment

Families pay fees online and the payment lands on the student's account with a receipt. We connect it to the school's own local payment gateway account during setup.

Question bank by syllabus

Questions are filed by subject, syllabus and lesson, so a teacher builds an exam on exactly what was taught.

Arabic PDFs

Receipts, certificates, admission forms and report cards print correctly in Arabic, with proper letter shapes and right-to-left layout.

Light or dark mode

Every user picks a light or dark admin panel, and the choice is remembered on that device.

Full data export

Export all of the school's data in one go. Your records stay yours, whatever happens.

Cloud file storage

Photos, videos and documents can live on S3-compatible cloud storage, so the server never runs out of space.

An up-to-date core

The platform runs on the latest Laravel 13 and PHP 8.4, and keeps receiving security updates.

ADMINISTRATION

Administration features list

Everything the office does in a day, with Excel import and PDF export where it matters.

Nozom Platforms

- Online admission form with a review queue
- Student information system and family records
- Bulk student and staff import from Excel
- Daily and monthly attendance, with a Leave option
- Staff attendance by QR code, and leave approvals
- Class, section, stream, shift and semester setup
- Timetable builder, with online class links
- Exam schedule, marks entry and grade scales
- Published results and report PDFs in Arabic or English
- Fees, installments, online payment and overdue list
- Fee relief and payment status (cleared or bounced)
- Income, expenses, payroll and payslips
- Transport: routes, pickup points and live bus map
- ID card and certificate designer
- Announcements, notifications, email and WhatsApp
- Student diary: behaviour notes by category
- Holidays and academic calendar
- Photo and video gallery
- Public school website with a contact inbox
- Roles and permissions you define
- App and portal languages, Arabic by default
- Dashboards, student and staff reports, Excel and PDF export
- Promote, transfer and year rollover
- Backup, restore and full data export

> Dozens of automated tasks save the school office hundreds of hours every year.

TEACHER

Teacher features list

Less paperwork, more teaching. Web panel plus the staff app for Android and iOS.

Nozom Platforms

- [x] My timetable, with online class meeting links
- [x] Class attendance, taken once and shared
- [x] Check in by scanning the office QR code
- [x] Lessons and topics with files, video and links
- [x] Assignments with due dates, submissions and grading
- [x] Exam marks by subject or by student
- [x] Bulk marks upload from Excel
- [x] Online exams with a syllabus-wise question bank
- [x] Student diary and behaviour notes
- [x] Announcements to a class or section
- [x] Student profiles and guardian contacts
- [x] Syllabus tracking per subject
- [x] Apply for leave and view payslips
- [x] Approve or reject student leave requests
- [x] Tasks assigned by management
- [x] Push notifications on the staff app

PARENT

Parent features list

One login for every child. Guardians switch between children inside the app.

Nozom Platforms

- Attendance with absence alerts
- WhatsApp messages from the school's own number
- Timetable and school calendar
- Lessons, assignments and submissions
- Exam schedule and published results
- Result PDF and report cards
- Fee balance, receipts and online payment
- Diary and behaviour notes
- Announcements and notifications
- Leave requests from the app or web portal
- Transport route and pickup point
- Live bus map and stop-by-stop progress
- School gallery and news
- Child's ID card and certificates
- Switch between children
- Arabic or English interface

STUDENT

Student features list

Everything a student needs for the day, on the web portal or the app.

Nozom Platforms

- [x] My timetable and calendar
- [x] Lessons with files and video
- [x] Assignments and file hand-in
- [x] Resubmission and grades
- [x] Online exams with timer
- [x] Join online classes from the app or portal
- [x] Exam schedule and results
- [x] Attendance, absences and leave
- [x] Syllabus and topics
- [x] Announcements and notifications
- [x] Elective subject selection
- [x] Transport route and live bus map
- [x] My ID card and certificates
- [x] Screenshots blocked during online exams
- [x] Arabic or English interface

FEES & FINANCE

Know who paid, who is late and where the money went

Fees, income, expenses and payroll in the same place as the student record.

Nozom Platforms

FEE STRUCTURE

Fee types, compulsory and optional fees, a structure per class, transport included.

INSTALLMENTS

Due dates, late charges and advance payments.

FEE RELIEF

Percentage or fixed discounts on a student's dues, logged and reversible.

PAYMENTS

Cash, cheque, transfer or online, Pending, Cleared or Bounced, with a PDF receipt in Arabic or English.

OVERDUE LIST

Who is late, at any moment, with automatic reminders.

REPORTS

Income report and a financial report of income vs. expenses.

INCOME & EXPENSES

Categories and entries for money in and money out.

PAYROLL

Salaries, allowances, deductions and monthly payslips.

Online fee payment is built in. We connect it to the school's own local payment gateway account during setup.

EXAMS & LEARNING

From lesson to report card

Lessons, assignments and exams, in school and online.

LESSONS

Topics with files, uploaded video, YouTube and external links.

ASSIGNMENTS

Due dates, points, file hand-in, resubmission and grading.

QUESTION BANK

Filed by syllabus and lesson, with an equation editor, bulk import and random selection.

TIMED PAPERS

Exam key, start and end window, duration, automatic marking.

EXAM TIMETABLE

A schedule for every class, visible to students and parents.

MARKS FROM EXCEL

Enter by subject or by student, or bulk upload.

YOUR GRADE SCALE

Define grades once; results are calculated automatically.

RESULT PDF

Published results, yearly, subject-wise and rank reports, in Arabic or English.

OPERATIONS

Transport, people and the school's public face

The parts of school life that other systems leave out.

Nozom Platforms

VEHICLES & ROUTES

Vehicles, routes, pickup points and transport fees.

LIVE BUS TRACKING

The staff app sends the bus position; parents follow it on a map, with trip attendance and stop-by-stop progress.

ID CARDS

Design templates and issue cards for students and staff.

CERTIFICATES

A certificate template builder; issue to students or staff.

STAFF & LEAVE

Staff files, QR check-in, leave requests, approvals and tasks.

SCHOOL WEBSITE

A public site you edit yourself, with sliders, news and a contact inbox.

GALLERY

Photo and video albums shared with families.

COMMUNICATION

Announcements, push notifications, WhatsApp, email templates and chat.

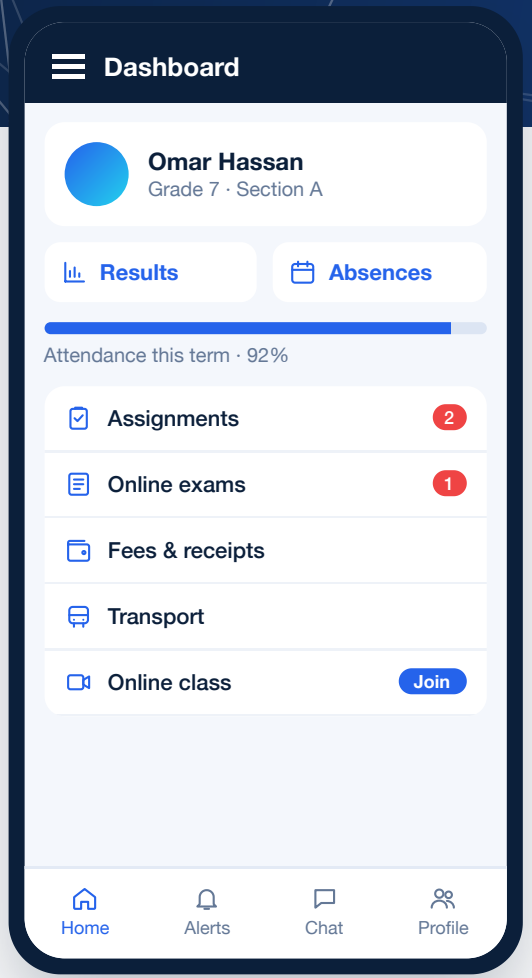

MOBILE APPLICATION

Nozom School on Android & iOS

A student & parent app and a staff app, published under your school's name during rollout.

Teachers, students and parents keep track of the school day on the go. Everything on the web panel that matters outside the office is on the phone.

- Attendance and absence alerts
- Timetable and calendar
- Lessons and assignments
- Online exams
- Join online classes
- Results and report cards
- Fees, receipts and online payment
- Diary and behaviour notes
- Announcements and push notifications
- Live bus map
- Switch between children
- Student leave requests
- QR check-in and payslips (staff)
- Arabic and English

ACCESS & SECURITY

Works where your school works, and keeps its data its own

Nothing to install. Any modern browser, plus the apps.

Nozom Platforms

PRIVATE DATABASE

A separate database per school, backup and restore from the panel, and a full data export.

ROLES & PERMISSIONS

Role-based access down to the single action.

EMAIL CODE AT SIGN-IN

A one-time code by email on every new sign-in.

PROTECTED EXAMS

Screenshots blocked in the student app during online exams.

WHY WORK WITH NOZOM PLATFORMS

Your hours, your language
Our team works in your time zone and your language.

Arabic-first onboarding
Training, the admin guide and day-to-day support are in Arabic.

Custom work in-house
We are a software house. Integrations and custom features are built by our own developers.

One line to reach us
WhatsApp, phone and email reach the same team that set up your school.

Nozom Platforms

NEXT STEP

See it running with your own team.

Book a live demonstration. We will walk your team through each role, then tailor a proposal to your school.
